# Spanish Courses - Cursos de español

The Spanish courses are organized into several levels, from 1 to 8: beginner, Intermediate, High Intermediate and Advanced.

Each level, covers specific grammar topics to fulfill the main objective of the course: which is to improve the students ability to communicate and maintain a conversation and naturally use the Spanish language structures.

In group lessons or private lessons, oral, written and listening comprehension activities, always focus on the use of the language in different contexts.

## IBL Español

Along the Spanish courses, students put in practice the different main skills to learn the Spanish language: they work with listening exercises and songs, they practice oral production by means of conversations, role plays and they are exposed to different topics according to their level. They learn the grammar structures and develop the written production through different tasks

In the advanced levels, students work with videos that enable a different approach to the language.
